As part of the Illinois Tollway project at the I294 and 87th Street overpass the Justice Willow Springs Water Commission has replaced the water main along 87th Street between 79th Court and 79th Avenue. We are happy to announce that the installation is complete, pressure tested, and chlorinated. We have just received the approval from the EPA to connect this water main into the existing distribution system.

Restoration on this project will begin tomorrow. **The intersection of 79th Ave and 87th Street will be closed from Thursday October 8th until Tuesday October 13th.** This intersection requires a large amount of concrete to be poured and needs this amount of time to cure and dry properly. The Village of Justice, Justice Police, and fire departments have been notified so response time will not be delayed due to this intersection being closed.

The Justice-Willow Springs Water Commission thanks you for your patience during this project. If you have any questions, please contact the office at 708-458-7010
